

My WM

Use the My WM App or this guide for tips and resources to improve garbage and recycling at your business. Others have found it easy to achieve success using these resources.

Invite WM's Recycling Outreach staff to company meetings and events to provide fun and informative recycling presentations for employees. We're here to help! Contact recyclenw@wm.com for more info.

RECYCLING

Place only the items listed below in your **blue** recycling container.

Metal

ALUMINUM & TIN CANS

Place tin lids in can, crimp shut.

SCRAP METAL

Small, non-working metal appliances, pots, tools, etc. Limit 2' x 2' x 2', 35lbs; no wood, plastic, or rubber attachments; no sharp metal.

Glass

JARS & BOTTLES (ALL COLORS ACCEPTED)

Only bottles and jars—no other types or shapes of glass are allowed.

Paper and Cardboard

CLEAN & DRY

Most types of paper and cardboard are accepted, as long as it is clean and dry. Instruct employees to flatten boxes.

Plastic

BOTTLES, JUGS & TUBS

Only recycle these "shapes" of plastic containers—do not worry about the recycling symbol or number.

Recycle Right®

- Recycle paper, cardboard, glass, tin/aluminum cans, and plastic bottles, jugs, and tubs in the same container!
- Contact the City to request small interior recycling containers to place next to desks, copiers, and break rooms. (While supplies last.)
- Invite WM Recycling Outreach staff to help set up your recycling program and speak at staff meetings. Contact recyclenw@wm.com for more info.

RECYCLING TIPS

Clean · Empty · Loose

No plastic bags, garbage bags or "recycling" bags allowed. Empty clean recyclables out of bags and boxes into the cart so that they can be easily sorted.

Empty and rinse out all food residue. Labels do not need to be removed.

Recycle Right. See results in your bill: The value of materials recycled in carts will be credited back to Federal Way businesses on the garbage bill. This will change annually based on the amount of materials recycled by all of Federal Way.

Less Packaging. Look for products that use less packaging. When manufacturers make their products with less packaging, they use less raw material. This reduces waste and costs. These extra savings can be passed along to the consumer. Buying in bulk, for example, can reduce packaging and save money.
