IMPORTANT FOR SMALL AND MEDIUM BUSINESSES

COVID-19 is impacting our communities in unprecedented ways and forcing all businesses to find savings wherever possible. Creating smart and efficient recycling, garbage, and compost systems is one piece of the puzzle – to prevent messes and extra expenses connected to overflow and contamination.

Sign up now for a complimentary digital consult to reduce your bill and waste. We'll walk you through the five steps to rapid recovery for your waste and recycling programs:

1. REASSESS YOUR WASTE STREAMS AND RIGHT SIZE YOUR SERVICE

What materials are you generating and what are your opportunities for waste diversion and prevention to help reduce costs?

2. REFRESH YOUR RECYCLING AND COMPOSTING STATIONS

Do you have the right bins, most up-to-date posters, etc.?

3. RE-EDUCATE YOUR STAFF

WM offers free presentations, waste audits and more!

4. REACTIVATE YOUR ACCOUNT TO RESUME SERVICE

When you are ready to resume service, we are just a phone call or email away.

5. REINVIGORATE YOUR CUSTOMERS

People love supporting green businesses. We'll provide suggestions for taking the next step to delight your customers with environmentally friendly solutions such as sustainable packaging and more!
