

2019 Grants for Seattle Communities

*Offered by Waste Management and
Seattle Public Utilities*

NEW! Waste Management, in partnership with Seattle Public Utilities, is awarding up to \$10,000 for projects supporting waste reduction, sustainable materials management, and cleaner neighborhoods in Seattle.

Grant recipients will be selected based on the following criteria:

- Environmental impact
- Waste reduction impact
- Neighborhood impact
- Community member involvement
- Project plan

Applicants must be Waste Management customers, and the project work must take place in Waste Management's service area (areas 1 and 4). See map below for details. Applications can be submitted by community groups, schools, organizations, or businesses. Up to five grants will be awarded to projects ranging from \$500 to \$10,000 per project. We have \$10,000 total grant funding available. Selected grant recipients will be required to submit a final report upon project completion.

Applications are due October 1, 2019

Fillable PDF form can be found at wmnorthwest.com/seattle.

Complete this form and submit via email to: recyclenw@wm.com
