Dear Valued Customer,

After serving you and our community since 1941, the Miller and Eldien families have decided to retire from the recycling and garbage business. We are excited to take this next step in our lives and grateful for your support and patronage over the years. Thank you!

We are pleased to announce that Waste Management has acquired Aloha Garbage Company, effective July 1, 2019. We chose Waste Management because the company has an excellent record for safety, reliability and service. Waste Management is also a strong local employer, having operated in Washington County for decades. We are confident they will deliver great service and show you how much they value you as a customer.

We anticipate a smooth transition, and there will be no changes to services or schedules at this time. If adjustments become necessary, you will be notified well in advance. Also, for customers interested in an automatic payment plan, Waste Management's program is free, convenient and paperless. Watch for sign-up information from Waste Management. To learn more about Waste Management, go to [sustainability.wm.com](http://sustainability.wm.com).

It has been a privilege doing business with you. We wish you the best in all your future endeavors.

Most sincerely,

Keith A. Eldien  
Aloha Garbage Company

&

Stephen L. Miller  
Aloha Garbage Company
