## Single Family Collection Guide | 2026

## Zero Waste of Resources

King County is working toward a goal of Zero Waste by 2030, meaning that materials of value, whether for reuse, resale, or recycling, will not be put in the garbage and end up in the landfill.

This does not mean that there will not be any garbage. Studies done at the King County Cedar Hills Regional Landfill (where our garbage goes) show that over 70% of the “stuff” we throw away each year could be recycled, composted, or reused.

### How can you help?

Rethink and reduce your purchases and practices, reuse materials and recycle the items that are recyclable. Visit King County’s website for more ideas on waste reduction at: [kingcounty.gov/en/dept/dnrp/waste-services/garbage-recycling-compost/solid-waste-programs](http://kingcounty.gov/en/dept/dnrp/waste-services/garbage-recycling-compost/solid-waste-programs)

**TOO GOOD  
TO WASTE**

### Buy what you need.

**PLAN** Before you shop, check your fridge, freezer and cupboards. Plan meals with items you already have. Shop with a list and use restraint to avoid buying more than you need.

### STORE

Store food properly to make it last longer.

### Eat what you buy.

**EAT** Cook and eat the meals that you planned. Practice use-it-up methods, freeze it, or give it away to friends and family. Get creative. Use up overripe fruit in a smoothie, or wilted veggies in a soup. Stale bread can become breadcrumbs or croutons.

### Compost the rest.

**COMPOST** Put unused food scraps into your yard+food cart.

For more ideas on reducing food waste, proper food storage tips and creative recipes, visit **King County's Food: Too Good to Waste**

The City of Auburn recommends the following sites for information on used cooking oil disposal:

- <https://bit.ly/AuburnOils>
- [www.wikihow.com/Dispose-of-Cooking-Oil](http://www.wikihow.com/Dispose-of-Cooking-Oil)
