Used Cooking Oil

RESIDENTIAL DISPOSAL

Do not pour cooking oil down the drain as it can cause blockages. Instead, carefully pour cooled cooking oil into a watertight container, seal it and place it in the garbage. For larger amounts of used cooking oil, use cat litter or another absorbent material like sawdust, flour or sand to absorb the oil, place in a sealable bag and dispose of the bag in your garbage.

The City of Auburn recommends the following sites for information on used cooking oil disposal:

RECYCLING TIPS

No plastic bags, garbage bags or "recycling" bags allowed.

Paper cartons (milk or juice) are not accepted and should be placed in the garbage.

Empty and rinse out all food residue. Labels do not need to be removed.

Ignore the number on plastics—Look at the SHAPE. Recycle plastic only if it is a bottle, jug or tub. No containers that held hazardous material.

Extra recycling: If you often generate extra recycle, please call WM to increase your cart to the next size.

Your materials are being recycled! All the recyclable items collected will be made into something new.
