Special collection: December - January

Solid Waste & Recycling

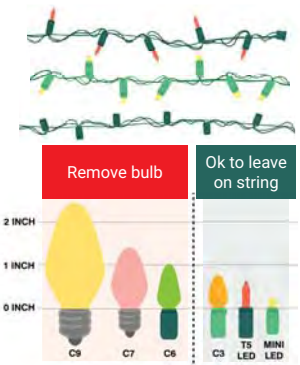

Recycle+

Recycle your broken string lights from **December 1 to January 31**.The plastic, copper and other metals will be used to make new products like wire, pipe, or the soles of a pair of slippers.

Include:

- String lights with LED or other small bulbs
- Strings without bulbs*

*Remove novelty and larger bulbs, identified as C6, C7 or C9, before recycling string.

Do not include:

- Rope lights
- String lights with novelty and larger bulbs that cannot be removed
- Yard figures or other decor

1. **Gather materials.** Follow preparation guidelines on the other side.
2. **Schedule a pickup.** Contact your garbage and recycling company to request a pickup at least two business days before your regular Recycle+ collection day.
3. **Set out your bin on scheduled pickup day.** Put items in your bin and close the lid. If your bin is full, put the lights in a clear plastic bag and set next to the bin for pickup.

Reminder: Consider donating working holiday lights or using WikiHow.com/Fix-Christmas-Lights to fix broken ones.
